

STONE CLIFF HOMEOWNER'S GUIDELINES FOR USING OUR FACILITIES

12-16-2023

*Coming together is a beginning.
Staying together is progress.
Working together is success.*

BACKGROUND HISTORY

In the Spring of 2018, a Development Plan Committee was formed by the Stone Cliff Board. The committee's purpose was to investigate the facilities needed to service our homeowners. This committee completed their work, which was approved in December of 2019 by the Board and Homeowners. This approval led to the development of the Implementation Committee, which in turn has carried these plans forward.

Then many challenges developed, ranging from the complexity of the project itself to slow government approvals, financing, and COVID. As a result, it wasn't until December of 2021 that we signed a contract with Watts Construction to build the project. Watts began the project in early 2022. We then soldiered forward to complete the project in approximately 10 months after first breaking ground.

This achievement was accomplished by the efforts and skills not only of the Watts team, but equally important by the efforts and skills of many homeowners, who brought their knowledge and resources to this project. Simply put, this project was successfully completed in a timely fashion because many good and talented people worked cooperatively to make it happen.

PURPOSE OF THIS HANDBOOK

The purpose of this handbook is to provide concise, easily available information for homeowners and residents with complying leases/rental agreements for the use and care of our recreational facilities. This information is partially drawn from the **Stone Cliff HOA Rules and Regulations**, which is an extensive manual, and has also been augmented after holding numerous Town Hall meetings with homeowners to gather their input. Homeowners have repeatedly emphasized the importance of simple, clear guidelines that will facilitate the use of our facilities.

The Implementation Committee and the homeowners in attendance at our Town Hall meetings felt the foundation of our community usage should be civility, respect, and trust--with an eye on THE GOLDEN RULE: *treat our neighbors and facilities as we would want others to treat us and our personal property.* ***Working together is success.***

With this principle in mind, this document is organized to answer the following questions:

- **Why** -- Why do we need rules and guidelines?
- **What** -- What will be the rules and guidelines for using these facilities?
- **Who** -- Who can use these facilities?

- **How** -- How will these facilities be used and maintained?
- **When** -- When can the facilities be used?
- **Costs** -- Are there any costs associated with using these facilities?

We see this document as a useful resource for homeowners. But we also realize that homeowners may need more complete information or have additional input into the use of our facilities. If so, you will find the five resources given below to be helpful.
